BACG ACADEMY
Pioneers in quality Analytics and Business Intelligence Education

OPEN DAY

Analytics and Business Intelligence Awareness Session

Analytics and Business Intelligence (BI) are the hottest buzzword being talked about by everyone? These emerging technologies are becoming very important for organizations who want to analyze and monitor their business performance. This is also one field which offers a lot of opportunities for fresh graduates to make a professional career.

- Are you interested in learning more about Analytics and BI???
- Do you want to understand the life cycle of a Business Intelligence Project?
- Learn about the various functional/technical roles involved??
- How you can enhance your career prospects?
- Why personal branding is important?

Join us for our Awareness Session and meet our team members who will share their knowledge and experiences, and answer your questions.
